

ANNOUNCING:

Registration is Now Available for

Sustainable Resource Management 1013

8-Week Summer Semester, June 9 – July 31, 2014

Kankakee Community College

Through this fast paced, industry-driven coursework, students will gain cutting-edge knowledge and skills! SRM 1013 is the first of two courses, with SRM 1023 to be offered in Fall, 2014. Among the first of their kind in the nation, these exciting courses incorporate learning standards developed by the National Standards Certification Board of the National Recycling Coalition, and were developed collaboratively by KCC and the Illinois Recycling Association (IRA). Students will be offered the opportunity to test to become a National Certified Sustainable Resource Professional through the IRA, further increasing their credentials for prospective employment or promotion.

Note: Available *online only* through Kankakee Community College, Illinois.

Instructor: Julie Larsen

First class will meet in-person, in order to insure everyone is comfortable with the new online platform and meet their fellow course participants.

First Class ONLY: 6 pm – 8 pm, Monday, June 9, 2014
KCC Riverside Campus, Room L-372

Campus Map:
